EVY LIGHT Wi-Fi Pairing

Step-by-step instructions to connect your EVY Light

OPTOCEUTICS

Step-by-Step Wi-Fi Pairing Guide (iOS) →

Steps You'll be Following

Connecting your **EVY LIGHT** to your preferred **Wi-Fi** network and syncing data to your **EVY INSIGHT** app account. Follow each step carefully to avoid any **errors.**

01 Device Pairing
- Starting Device Registration
- Identifying Your EVY Light
- Granting Permissions
- Entering Pairing Mode

02 Wi-Fi Connection
- Connecting EVY Light Device
- Selecting Wi-Fi Network
- Entering Wi-Fi Password
- Wi-Fi Connection Request

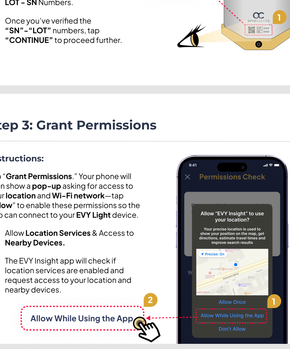
03 Verification Check
- Verifying Device Connection

04 Finish Pairing
- Exiting Pairing Mode

Step 1: Start Device Registration

Instructions:

After logging into your **EVY Insight** app, go to the **TODAY** screen, find the Register Device Banner and tap "**Start**" to begin pairing your **EVY Light** device.

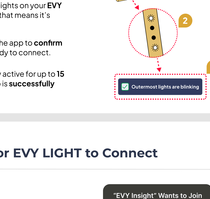


Step 2: Identify Your EVY Light

Instructions:

To help the app find your **EVY Light**, you'll need to enter two numbers — "**LOT**" and "**SN**" — from the **label** on the back of your device.

- Enter both numbers carefully in the **correct** fields — **do not** switch them. Entering them incorrectly will result in a **connection error**.
- **LOT – SN** Numbers.
- Once you've verified the "**SN**"-"**LOT**" numbers, tap "**CONTINUE**" to proceed further.

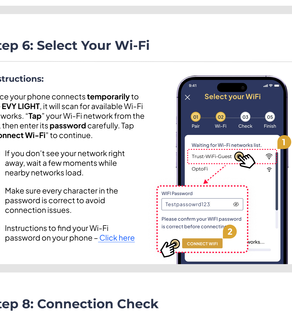


Step 3: Grant Permissions

Instructions:

Tap "**Grant Permissions**." Your phone will then show a **pop-up** asking for access to your **location** and **Wi-Fi network**—tap "**Allow**" to enable these permissions so the app can connect to your **EVY Light** device.

- Allow **Location Services** & Access to **Nearby Devices.**
- The EVY Insight app will check if location services are enabled and request access to your location and nearby devices.

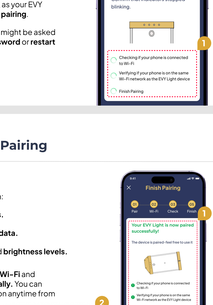


Step 4: Enter Pairing Mode

Instructions:

"**Press**" and "**hold**" the button on your EVY Light for **8 seconds** to enter **pairing mode.**

- The **two** outermost **lights** will start **blinking** and **central light** will **turn off.**
- Check that the outer lights on your **EVY LIGHT** are **blinking** — that means it's ready to **pair**.
- Tap the checkbox in the app to **confirm** your **EVY LIGHT** is ready to connect.
- **Pairing mode** will stay active for up to **15 minutes** or until setup is **successfully** completed.



Step 5: Wait for EVY LIGHT to Connect

Instructions:

The app will search for your **EVY LIGHT** — this may take up to **30 seconds**. The app would ask for a permission to **join** the **EVY LIGHT**'s Wi-Fi network. Then, it will ask for permission to **find** and **connect** to devices on your **local network**. Tap "**Join**" and "**OK/Allow**" to proceed.

- The app will **temporarily** switch to the "**EVY Light Network,**" then display the **Wi-Fi** list.
- If it takes longer than **30 seconds** or you see "**Unable to join**" or "**No Connection,**" tap **Try Again**.
- If it **fails** again, double-check the "**SN**" and "**LOT**" numbers, make sure your EVY Light is in **pairing mode**, then retry the **pairing process.**

Step 6: Select Your Wi-Fi

Instructions:

Once your phone connects **temporarily** to the **EVY LIGHT**, it will scan for available Wi-Fi networks. "**Tap**" your Wi-Fi network from the list, then enter its **password** carefully. Tap "**Connect Wi-Fi**" to continue.

- If you don't see your network right away, wait a few moments while nearby networks load.
- Make sure every character in the password is correct to avoid connection issues.
- Instructions to find your Wi-Fi password on your phone – Click here

Step 8: Connection Check

Instructions:

Make sure your **phone** and **EVY LIGHT** are on the same "**Wi-Fi network**". If you have more than one Wi-Fi network at home, your phone may **reconnect** to a different one.

- The app "**checks**" if your **phone** is **connected** to Wi-Fi and makes sure it's the same network as your EVY Light before finishing **pairing**.
- If any check fails, you might be asked to **re-enter** your **password** or **restart** the **pairing process.**

Step 9: Finish Pairing

Instructions:

You're all set! Now you can:

- Record your **sessions.**
- View all your **session data.**
- Set up your preferred **brightness levels.**
- **EVY Light** saves your **Wi-Fi** and connects **automatically.** You can manage its connection anytime from the app **settings.**
